UN CLIMATE CHANGE CONFERENCE

# NAMIBIA AT COP29

## PROGRAMME OF ACTIVITIES

 11 - 21 November 2024

 Number H3, Blue Zone

Powered by nature

**Official Opening of the Namibian Pavilion Programme**

12 Nov 2024

10:00 - 11:00

**Panel 1: Sustainable Development Risks and Opportunities: How to support this transition to a green Namibia via the Green Industrialisation and Oil and Gas value chain**

**Powered by NIPDB**

The panel focuses on the challenges and potential benefits of transitioning Namibia toward sustainable development, particularly through green industrialization and the oil and gas sector.

12 Nov 2024

14:00 - 15:00

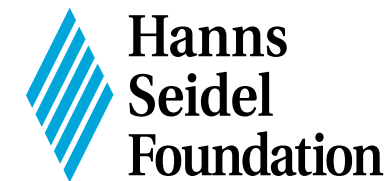

**Presentation and Panel 2: Strengthening Climate Action: Hanns Seidel Foundation's Engagement Worldwide**

**Powered by Hanns Seidel Foundation**

This presentation and panel discussion aims to showcase Hanns Seidel Foundation's worldwide initiatives in the fields of climate, environment and sustainability and foster discussions on how to best forge effective partnerships.

13 Nov 2024

10:00 - 11:30

**Panel 3: Leveraging Green Transportation Corridors to benefit from EU Carbon Border Adjustment Mechanism**

**Powered by NIPDB**

13 Nov 2024

14:00 - 15:00

**Panel: Evidence and Learning from an Impact Evaluation of a GCF funded project in Bangladesh**

**Powered by Green Climate Fund**

14 Nov 2024

15:00 - 16:30

**Presentation: Producing the Most Sustainable Barrel of Crude Oil on the Continent**  
**Powered by NIPDB**

The report evaluates the livelihood support component of this project and its impact on women’s lives in the southern districts of Khulna and Satkhira, Bangladesh. It assesses the project’s causal effects on various aspects of household well-being and resilience to climate change, with a particular focus on women’s empowerment as a key impact indicator.

**15 Nov 2024**

**10:00 - 11:00**

**Panel 4: Exploring Innovative Means Of Rural and Peri-Urban Electrification Through Renewable Energy in Namibia**  
**Powered by EIF**

Objectives: Analysing the existing RE landscape in Namibia, Exploring prospects around existing RE technology relevant to the topic Discussing alternative financing models that address a gap in the renewable energy financing segment - Unpacking learnings from existing programs

**15 Nov 2024**

**11:00 - 12:00**

**Presentation: A study “Localizing Green Industries in Namibia” a collaboration between the Namibia Green Hydrogen Programme, Ministry of Industrialization and Trade and GIZ**  
**Powered by H2A**

The panel focuses on the challenges and potential benefits of transitioning Namibia toward sustainable development, particularly through green industrialization and the oil and gas sector.

**15 Nov 2024**

**14:00-15:00**

**Book Launch: “From Crisis to Action: Climate Change through the Eyes of the Most Vulnerable”**  
**Powered by CVF-V20 and UNU EHS**

The book launch of From Crisis to Action: will take on an engaging talk show format, combining lively discussion with selected readings from the book. In conversation with the host, the two authors will delve into key topics like “The Climate Has Already Changed”, “Heat, Health, and Hunger” “Loss and Damage”, Climate Financing” and the “Adaptation Gap”.

**18 Nov 2024**

**10:00 - 11:00**

**Panel 5: Empowering Communities: The Future of Carbon Action in Africa**  
**Powered by Climate Balanced**

This panel discussion at the Namibia Pavilion of COP29 will focus on “Community-Based Carbon Action in Africa,” bringing together key players from Gold Standard, IETA, Bezero Carbon, and Kita. The session will explore diverse perspectives on leveraging carbon markets to empower African communities, ensuring sustainable development and climate resilience.

**18 Nov 2024**

**14:00 - 15:00**

**Panel 6: Empowering Community-led Adaptation: showcasing good practice from V20 countries**  
**Powered by Triple Capital, CVF V20 and Environmental Investment Fund of Namibia**

The panel discussion will reflect on the experiences and lessons learned from the implementation of locally-led adaptation projects funded through the GCF and implemented by direct access accredited entities. It will share lessons learned, and examples of good practices for designing, financing, and implementing locally-led adaptation projects.

**19 Nov 2024**

**10:00 - 11:30**

**Presentation: Farming Carbon Markets**  
 Powered by Nopal Cactus

19 Nov 2024

11:30 - 12:30

**Panel 7: Accelerating Private Sector Engagement in Adaptation**  
 Powered by Triple Capital and CVF V20

Private sector investment in climate change adaptation has been relatively low due to a high perception of risk and low returns. The V20 and the African Development Bank are piloting results-based financing models to de-risk and incentivise private sector investment in Adaptation. This discussion aims to explore innovative funding instruments and mechanisms to support adaptation investments and showcase examples in the agriculture sector.

19 Nov 2024

15:00 - 16:30

**Presentation: E-methanol from biogen CO2 from algae for green shipping corridors - A Skorpion Pilot Facility in Namibia**  
 Powered by Kaoko Energy

20 Nov 2024

10:30 - 11:00

**Panel 8: Designing Gender-Inclusive Investment Projects: Lessons Learned and Tools for Success**  
 Powered by African Union and Global Green Growth Institute (GGGI)

21 Nov 2024

11:00 - 12:00

**Presentation: Opportunities for gender mainstreaming and business in the bush to electricity sector**  
 Powered by NamPower

21 Nov 2024

14:00 - 15:00
